

● AGRI PALLET STABILISATION

PRODUCT INFORMATION

To protect carefully packaged products from damaging during transport, the pallets must be stabilized. Van der Windt supplies a comprehensive range of pallet stabilising materials that ensure your pallets will arrive at their destination 'guaranteed intact'.

WHAT WE CAN SUPPLY

Whether your pallet is merely moved 'next door' or whether it goes all the way to Moscow, we have a range of pallet packaging materials that will meet the requirements of the intended transport without using and/or paying too much.

- **Stabilisation panels**
 - corrugated cardboard panels
 - solid cardboard panels
 - wood (chipboard)
 - honeycomb cardboard
- **Pallet corners**
 - recyclable cardboard corners
 - 'aluminium' corners of recycled Tetrapak™ material
- **Strapping materials**
