

Van der Windt

Our Quality department ensures our quality – and yours

A producer or packer of food has to comply with a whole range of regulations and guidelines and if you are planning to have your product certificated via one or more of the certificating bodies you will definitely be asked a range of very diverse questions. It is good to know that Van der Windt has all the answers as far as your packaging is concerned. Our own Quality Department not only guarantees the quality of Van der Windt's products it can also answer any packaging questions related to your certification. Van der Windt has considerable experience with quality certification and certificating bodies and as a leading packaging supplier we do have all the relevant certification in house such as BRC-IOP and ISO 9001:2008. The major benefit of having our own Quality Department is that we can keep a very close eye on developments in the field of certification and react to any changes. We know our way around the guidelines and know better than anyone all the certification questions that can arise. We use this expertise to ensure you receive all the relevant information and documentation about our packaging - quickly and accurately.

How we can be of service to you?

If you have any questions about certification and documents, would like to know more about the composition of products or the production process please contact us at any time. You can count on a practical and free service tailored to your needs and products. Van der Windt considers this to be a standard service we offer our customers which means you are getting the best information all of the time.

Other services available

The Quality Department is not the only department that can be of service to you. Our in house design studio will be very pleased to help with your printed packaging and this additional service is typical of Van der Windt.
